EXPERIENCE

PROJECT MANAGER

Techmire Solutions
AUG 2026 - PRESENT

- Managed direct client communications, translating business needs into detailed technical scopes, timelines, and deliverables.
- Led end-to-end agile delivery lifecycles, driving sprint planning, milestone reviews, and on-time project releases.
- Aligned client expectations with engineering teams, providing regular demos, managing scope adjustments, and resolving technical blockers.

LEAD FULL STACK DEVELOPER

Techmire Solutions
JUN 2025 - AUG 2026

- Architected scalable web applications using Next.js, Node.js, and high-performance Fastify backends.
- Led development teams through full agile lifecycles, driving code reviews, system design, and technical standards.
- Optimized database schemas and API throughput, cutting response times and ensuring reliable production deployments.

FULL STACK INTERN

Techmire Solutions
AUG 2024 - MAY 2025

- Built responsive frontend interfaces using React/Next.js and integrated backend services with Node.js/Django.
- Developed RESTful APIs and managed database queries across PostgreSQL and MongoDB.
- Collaborated in Agile sprints, conducting code reviews and managing deployments via Git/GitHub.
